HFE – From Nice to Lisbon: a step forward in EU Health? European Parliament (Brussels), 17.11.2009

Health First Europe (HFE) organised a roundtable on 17.11.2009 at the European Parliament, entitled “From Nice to Lisbon: a step forward in EU Health?”

The roundtable was aimed at initiating a broad discussion on the future of EU health policy within the Lisbon Treaty and within the European Parliament. Now that the new treaty has come into force, Health First Europe’s objectives are even more important than before.

The event also celebrated HFE’s 5th anniversary. Founded in 2004, this day was a milestone in their mission to promote health in Europe.

The discussions helped to better understand the changes that will affect EU Health Policy with the new Lisbon Treaty.
